

	CDS (single exon)	CDS (multi-exon)	mature peptide (MP#i)	CDS (made up of mature peptides)
No errors				
ajb (adjacent before) mature peptide is not adjacent to expected mature peptide on 5' end				

Example output from annotation script:

KJ501413

5 MP#5

ajb

mature peptide is not adjacent to same set of mature peptides before it as in reference [-(5.1,4.1)]
